

Muskoka Stewardship Conference  
April 30, 2011

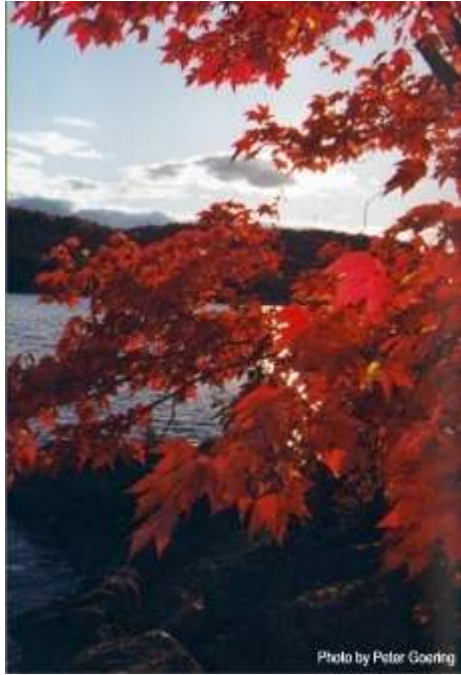

# The Muskoka Envirocredits program offers

- a comprehensive approach, based on “**no regrets**” **strategies** that:
- enhance watershed health,
- protect wilderness and wetlands,
- build community stewardship and an environmental ethic,
- promote sustainable forestry practices
- mitigate the impact of **climate change**.

# The program is delivered by an alliance of local non-profit organizations

- Each has earned the public trust
- Each has a proven record of successful participation in partnerships

- **The program offers individuals, small business and corporations the opportunity to promote watershed health while offsetting carbon emissions through investment in local initiatives.**

• **A tax receipt ( over \$ 20) will be provided for contribution to the ME program.**

Your Conference fee includes a \$ 5 donation to

## **Pen Lake Farms Nature Reserve Enhancement Project**

**Your Envirocredits will support the purchase of trees, preparation of the site, planting and tending the trees for twenty years.**

- wildlife supporting vegetation around the wetland
- a buffer of mixed plantings will be developed at the eastern edge of the Trust property.
