

Stewardship Conference

April 30th, 2011

MFTIP

Managing for Recreation, Trails and
Habitat

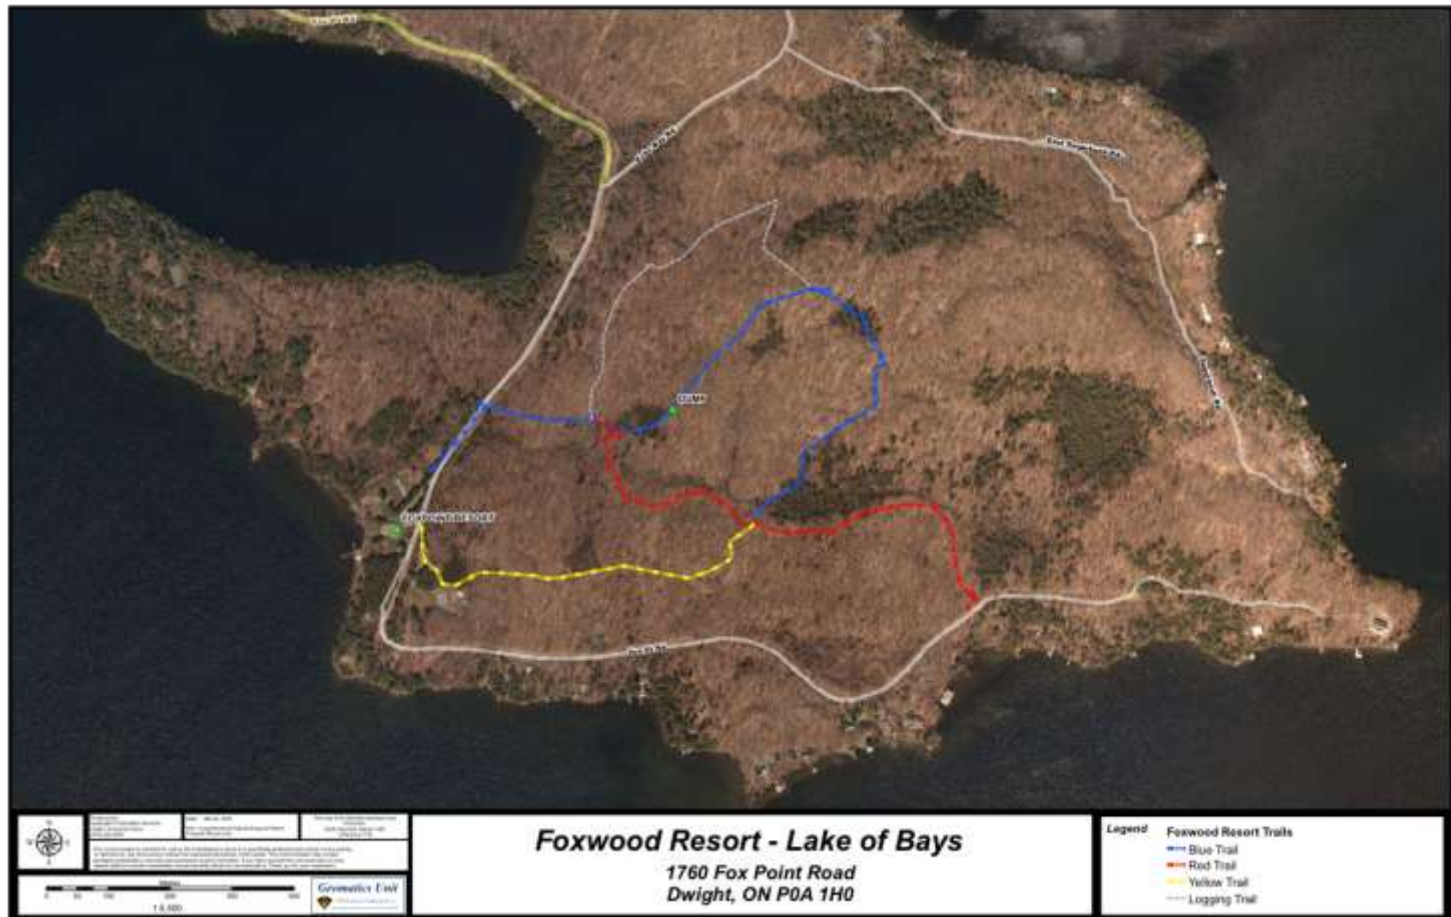

Outline

1. Introduction to property and how we came there.
2. How we heard about and implemented a MFTIP plan.
3. Our management objectives and implementation plan.
4. Conclusion.

Foxwood Resort

Fox Point

Our Lots

Compartment Map

Landowner Objectives

• <u>Rank</u>	<u>Management Objective</u>	<u>Priority</u>
• 1	Maintain a Healthy Forest	High
• 2	Wildlife	High
• 3	Recreation	High
• 4.	Wood Products	Medium

Maintain a Healthy Forest

Mushrooms

Wildflowers

Mast Trees

Cavity Trees

Wildlife

Recreational Use

Snowshoeing

Tracks

Scat

Maple Syrup

Hiking

Survival skills

Capture the flag

Nature Crafts

To Come

- Expanded orienteering course
- Geo-cache
- Low ropes course
- Night hikes/Insect hikes

Conclusions

- A well managed forest has the best chance of being a healthy forest.
- A healthy forest is a good thing- no matter what your goals for it are.
- A MFTIP plan helps you save money (taxes) and make money (sustainable logging).
- A forest is a great healer and teacher.
- There are lots of wonderful opportunities to learn more through other Stewardship workshops.

That's it!

Thanks.
